Semeiotica TC

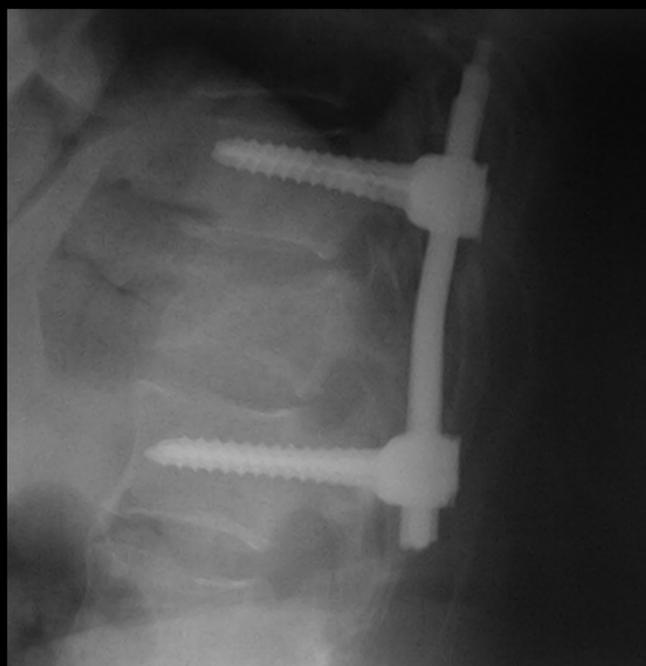

Semeiotica TC

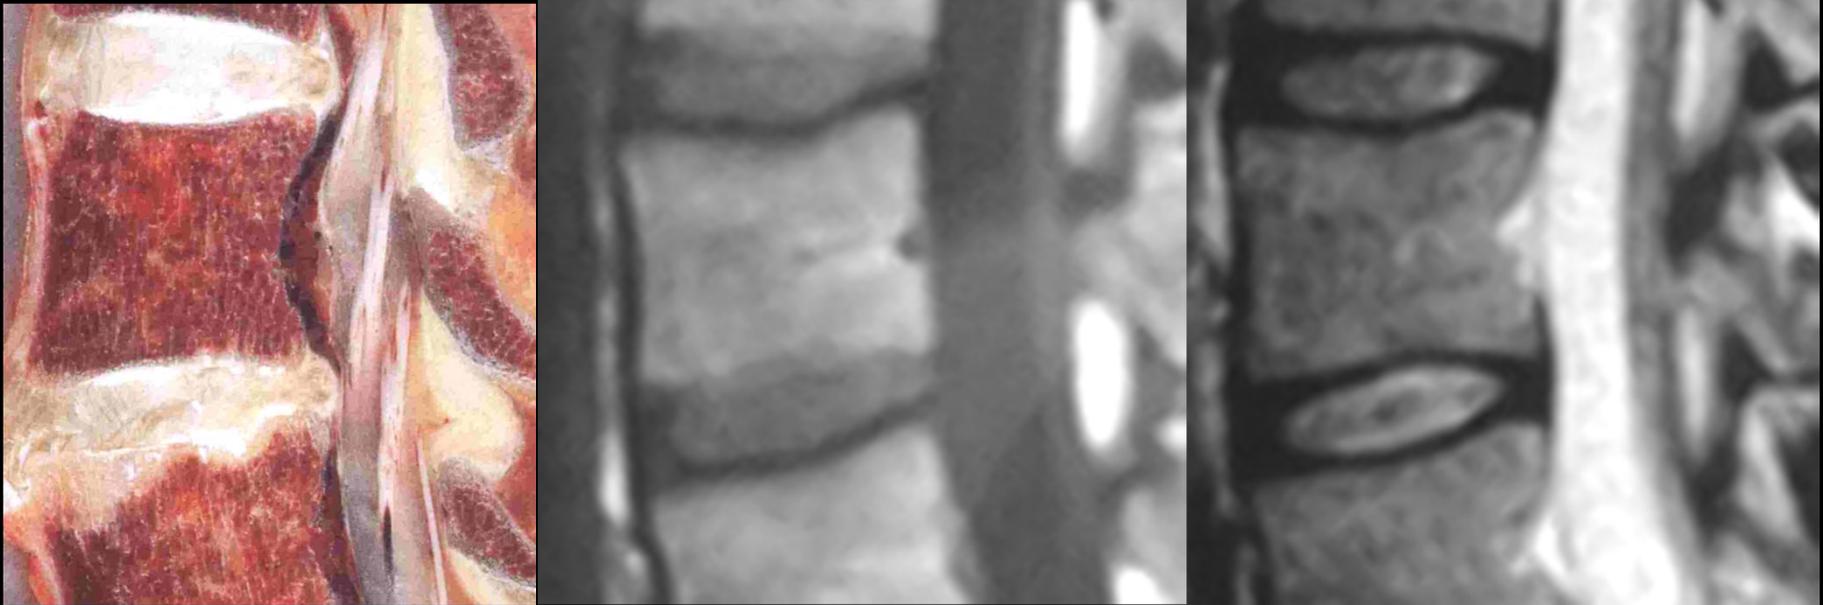

**FRAMMENTI
INTRACANALARI**

Semeiotica TC

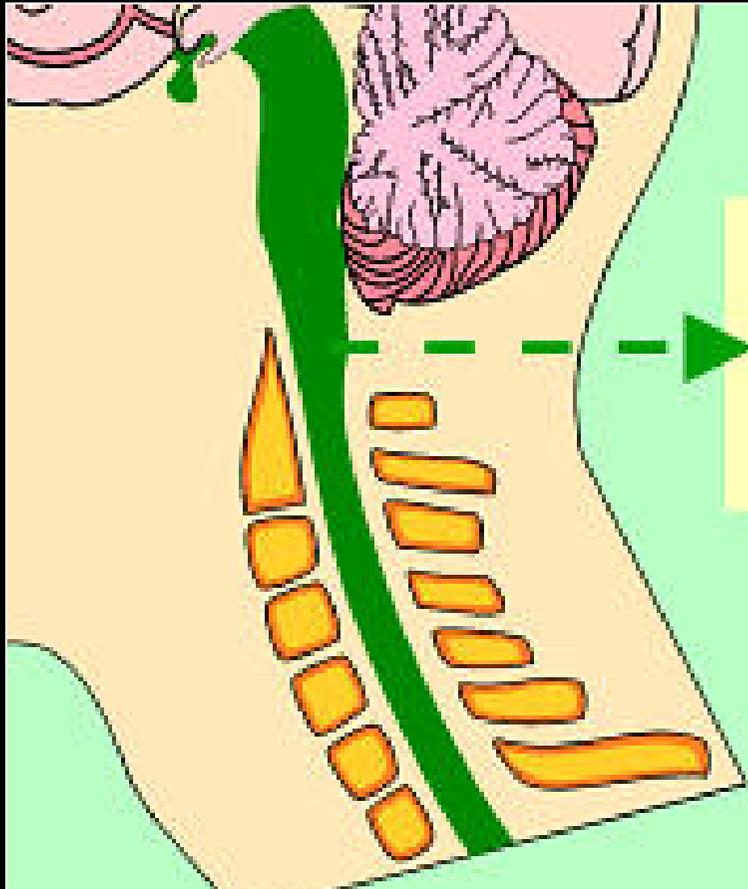

Semeiotica RM

- Midollo rosso (ematopoietico)
- Midollo giallo (degenerazione adiposa)
- Midollo gelatinoso

Anatomia della cerniera cervico-occipitale

ANATOMIA

Spazio liquorale

Peduncolo

Faccetta articolare sup.

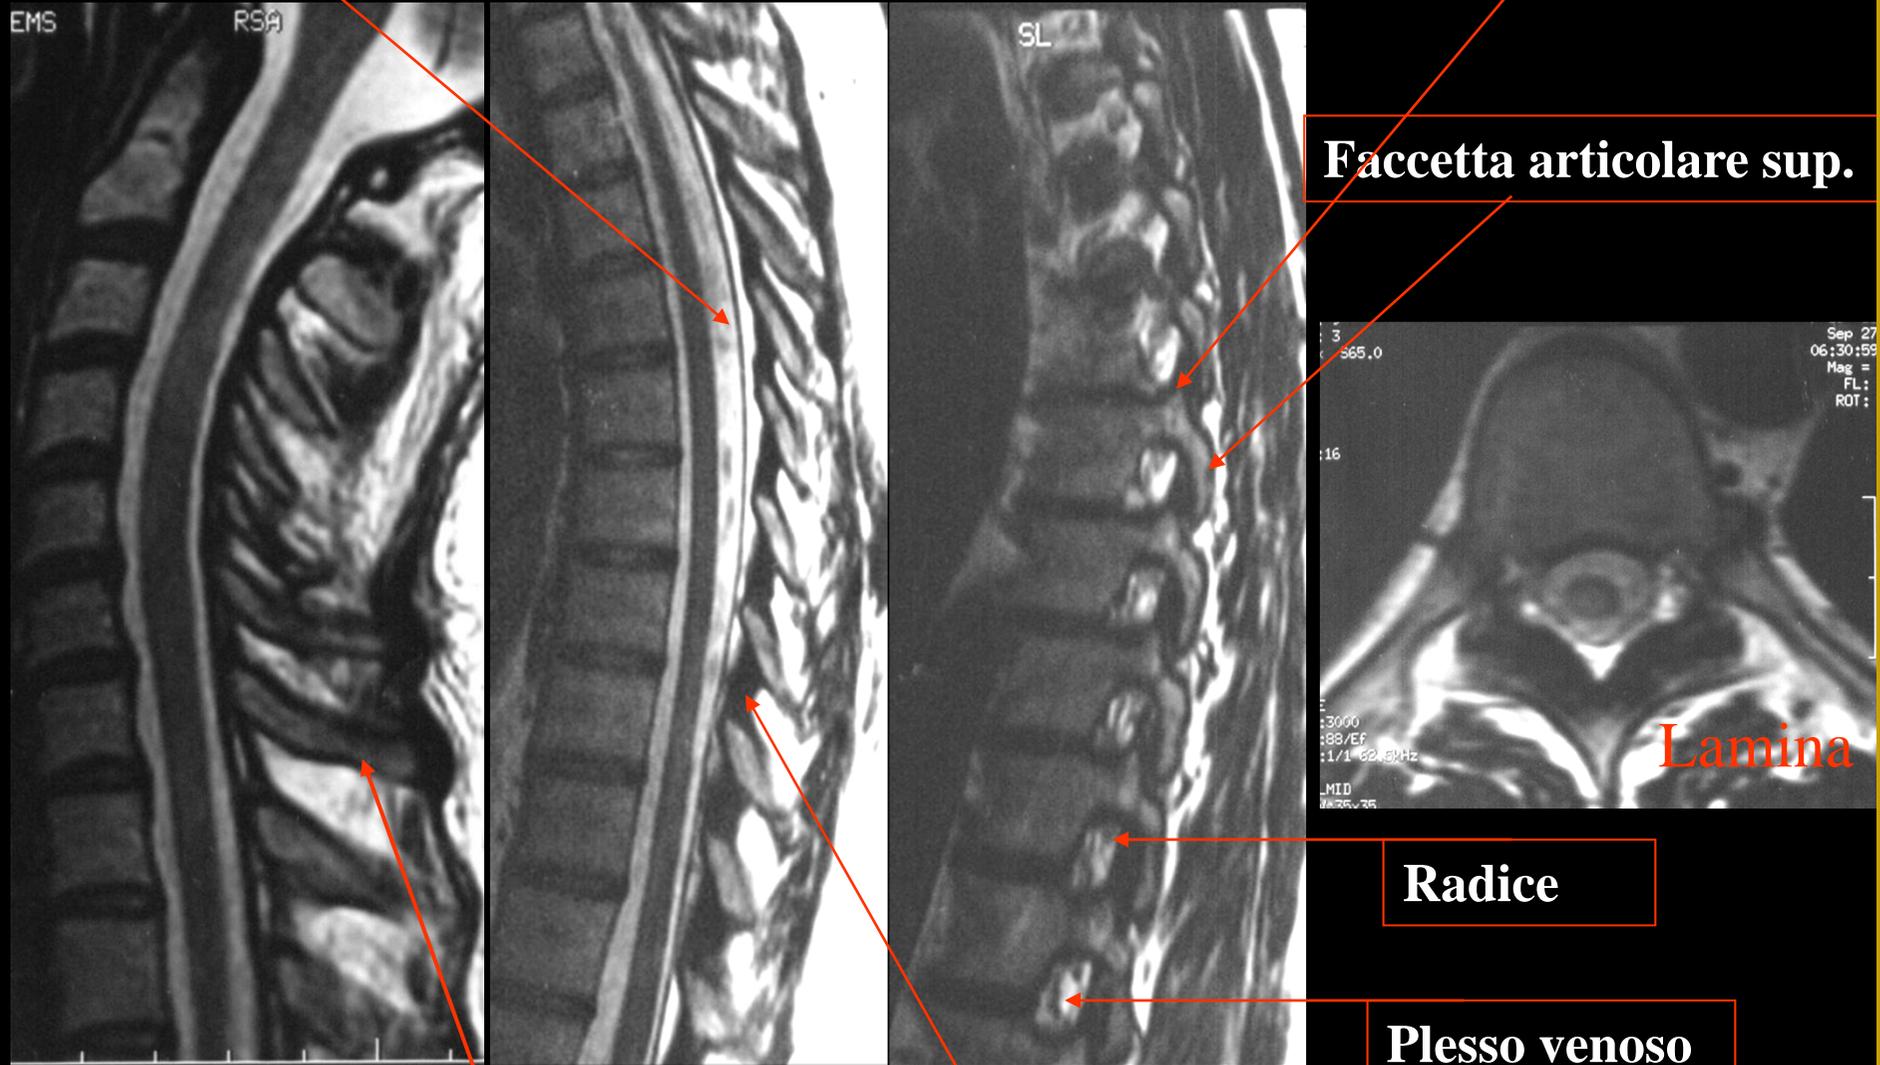

Lamina

Radice

Plesso venoso

Processo spinoso

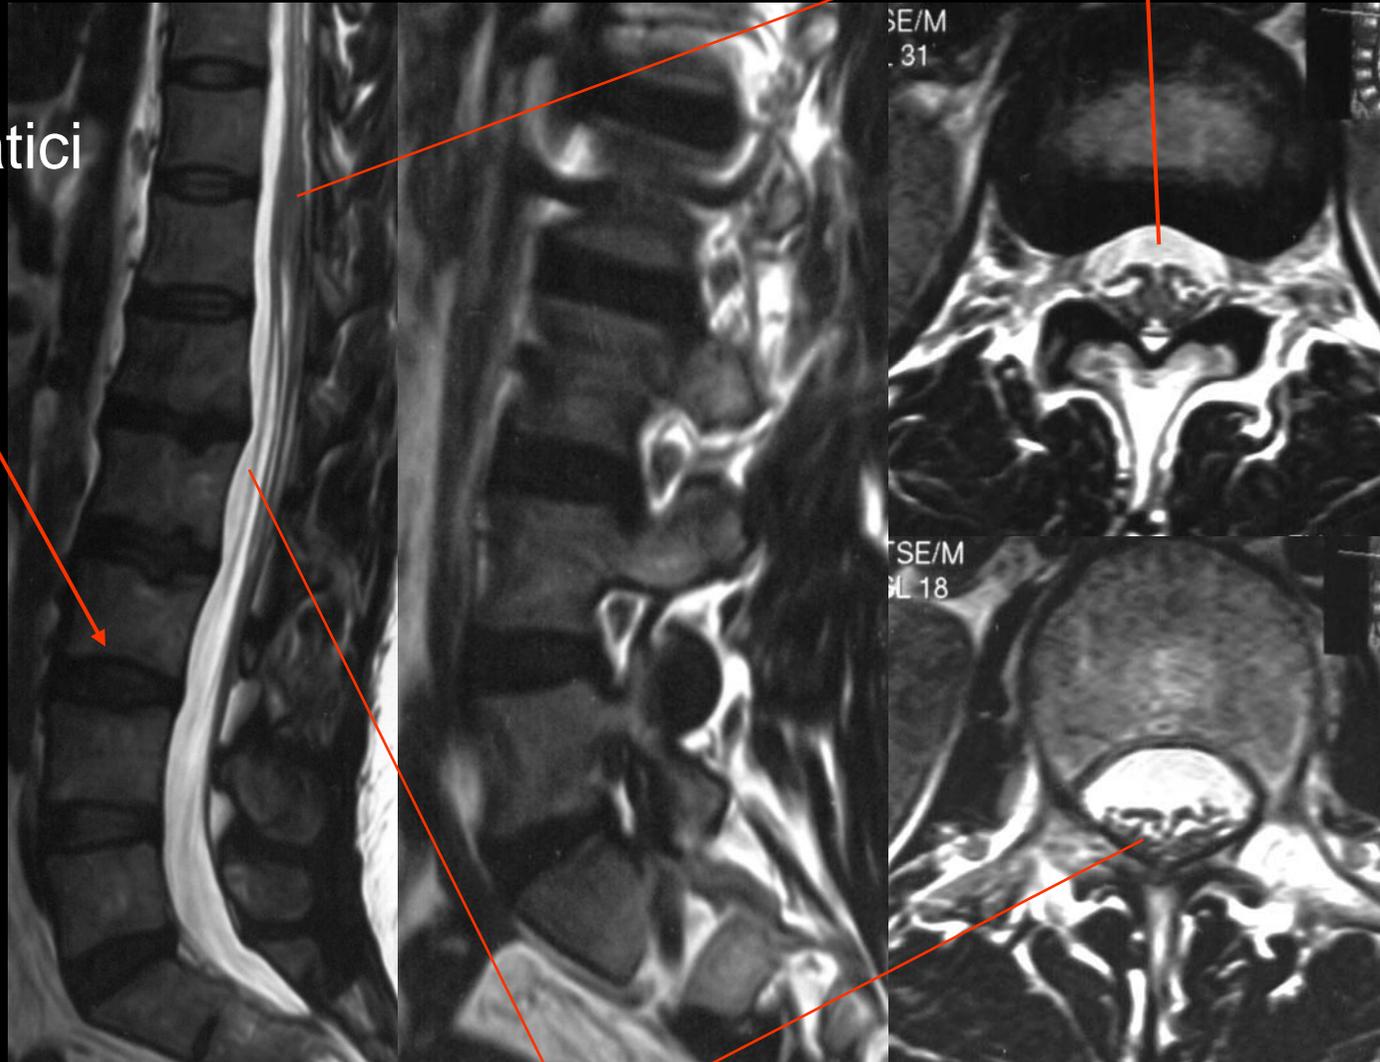

Legamento giallo

ANATOMIA

Cono midollare

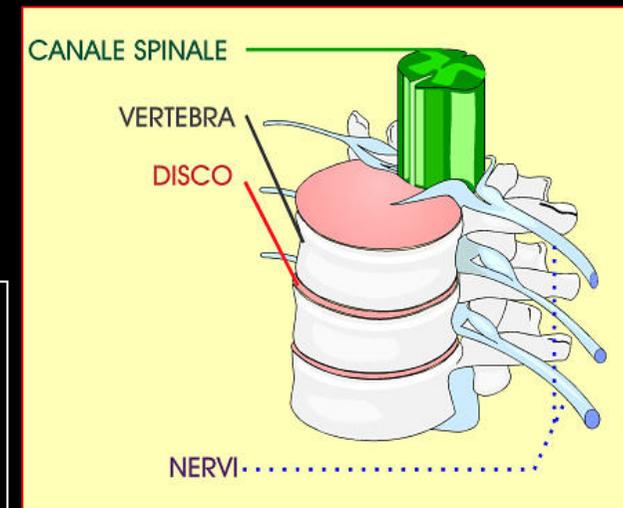

Dischi intersomatici

Radici della cauda

Biomeccanica

- **Componenti rigide :**
 - corpi vertebrali
 - elementi posteriori
- **Componenti flessibili:**
 - dischi intervertebrali
 - legamenti

Modulo
elastico

**8 radici
cervicali**

**12 radici
dorsali**

**5 radici
lombari**

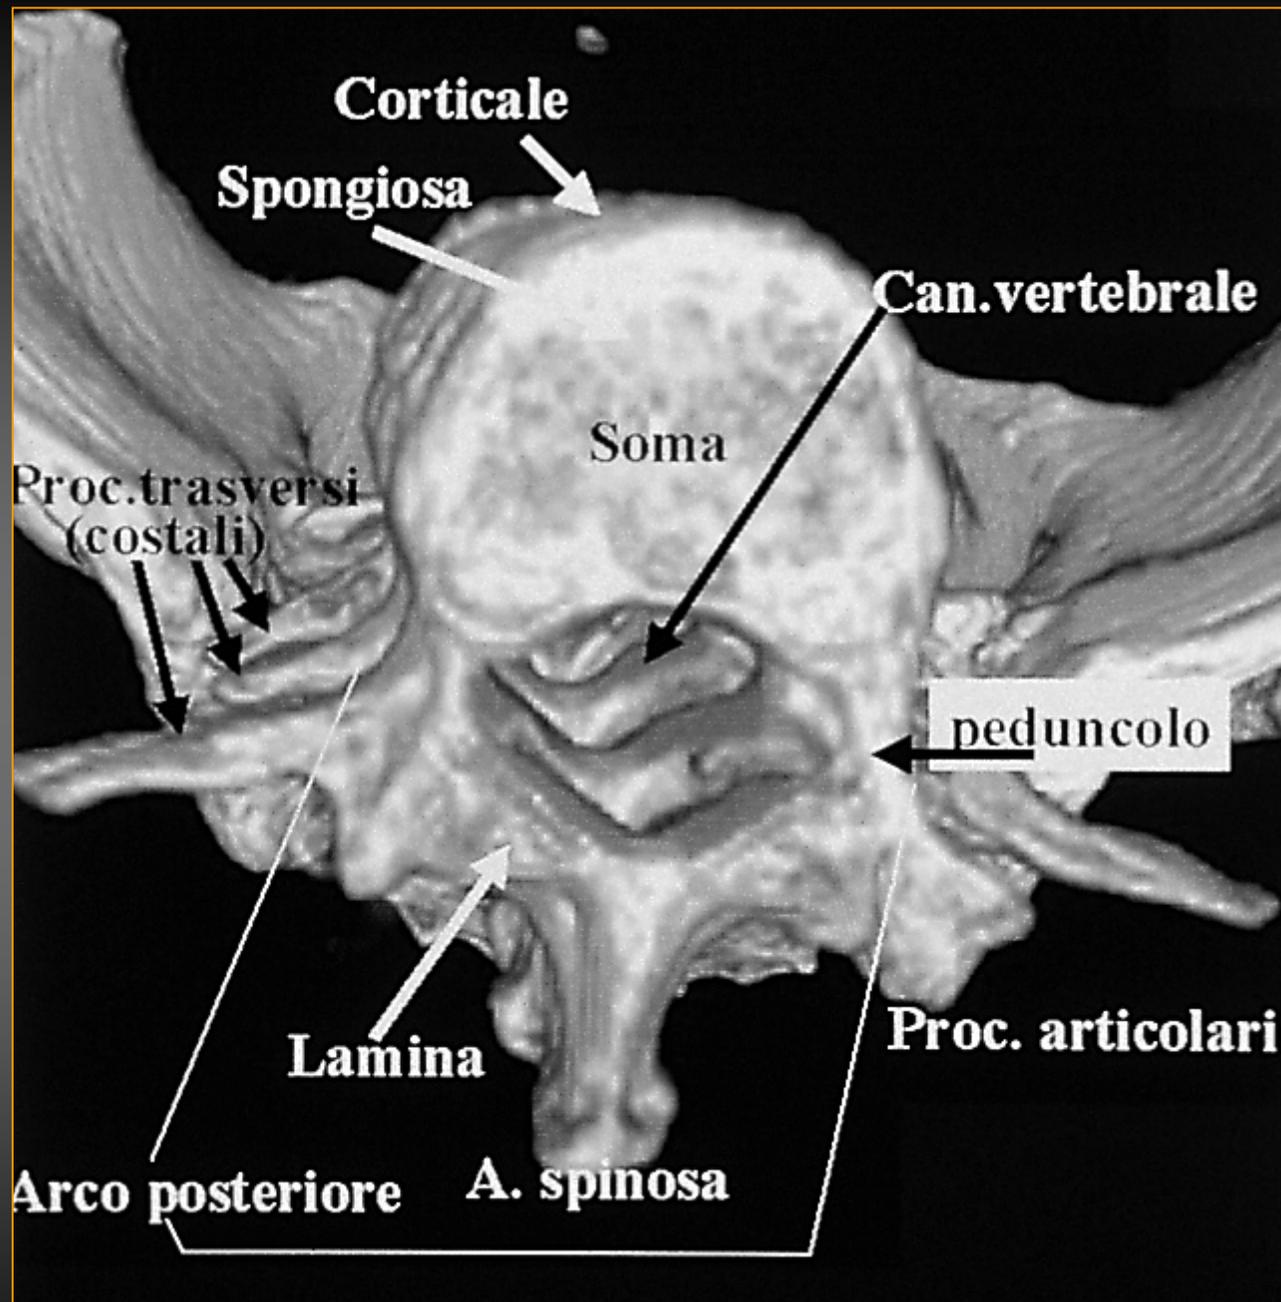

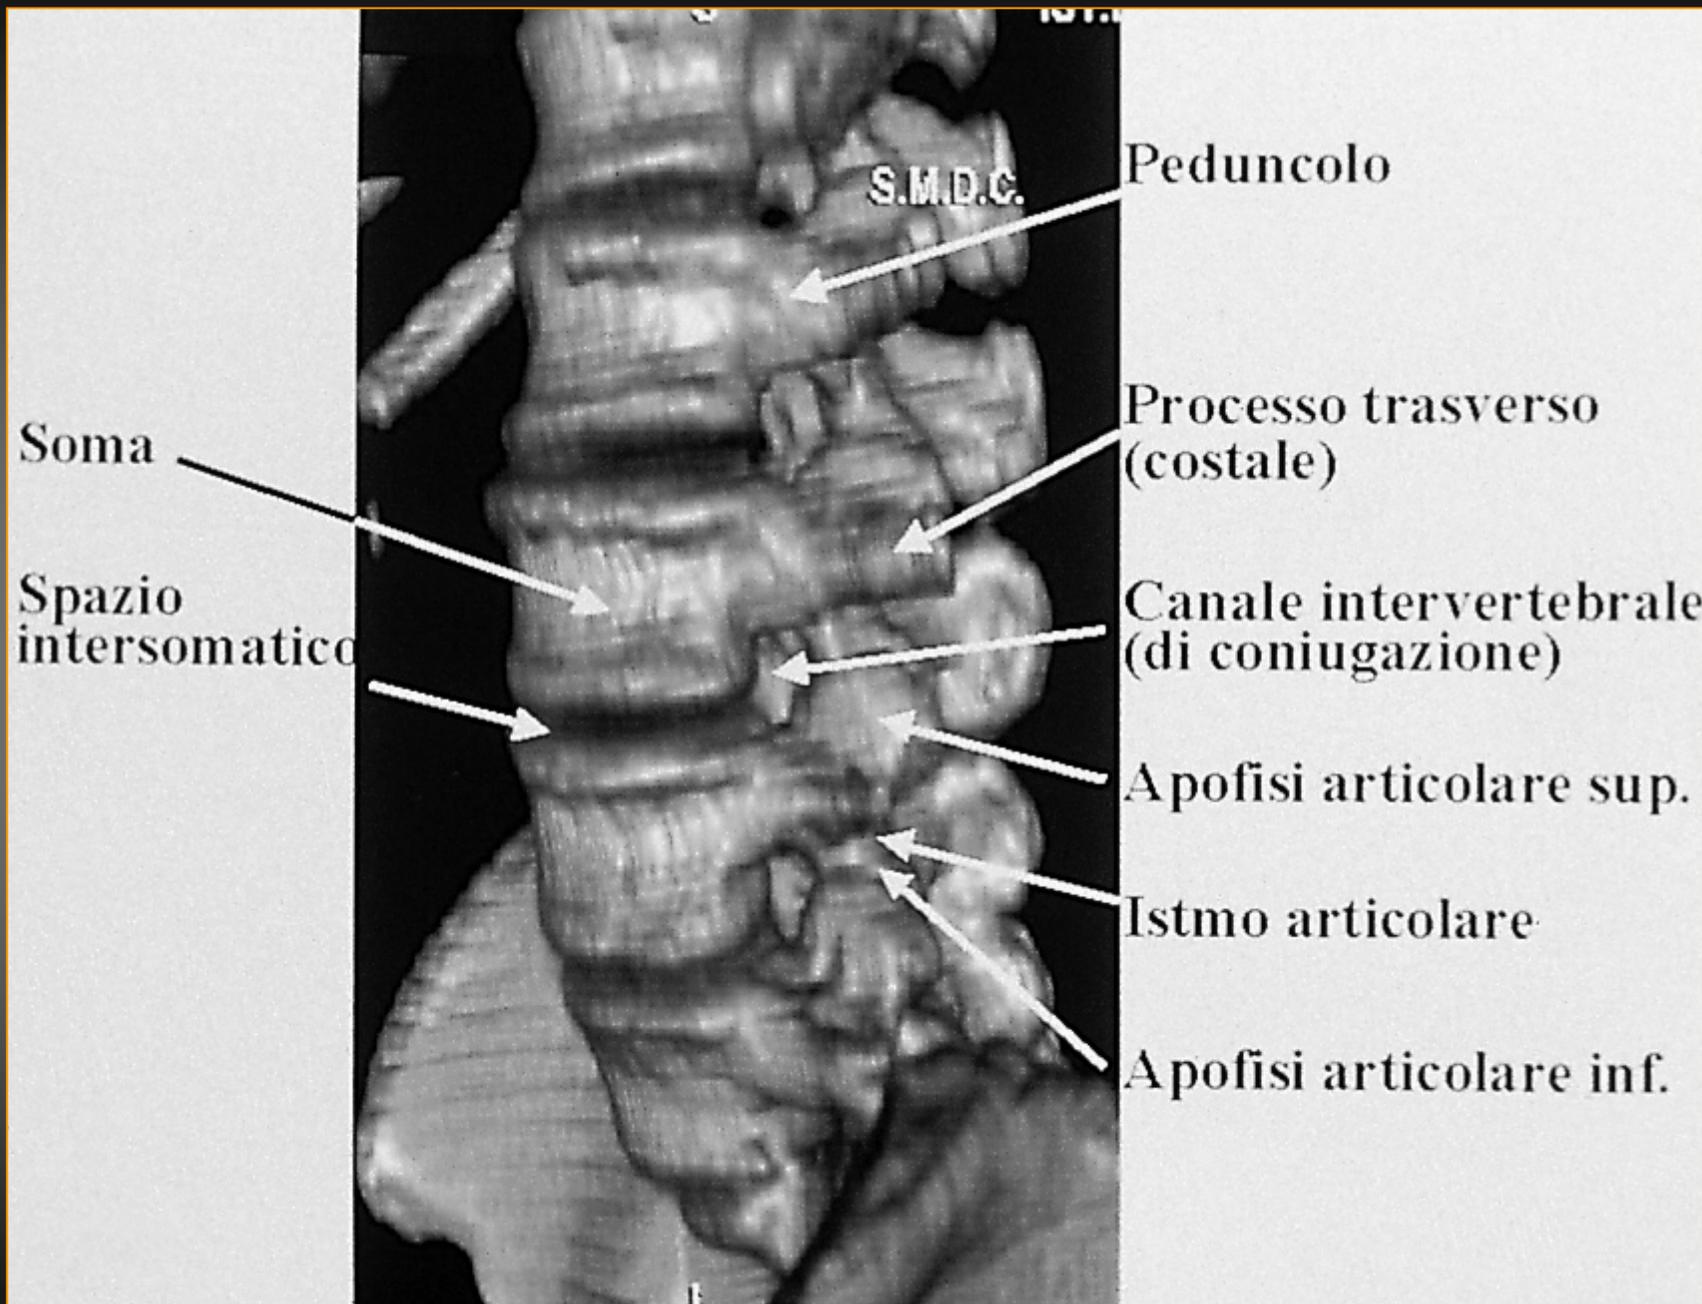

**passaggio tra
cifosi dorsale
e lordosi
lombare**

cono

filum terminale

cauda

Soma

Spazio intersomatico

S.M.D.C.

Peduncolo

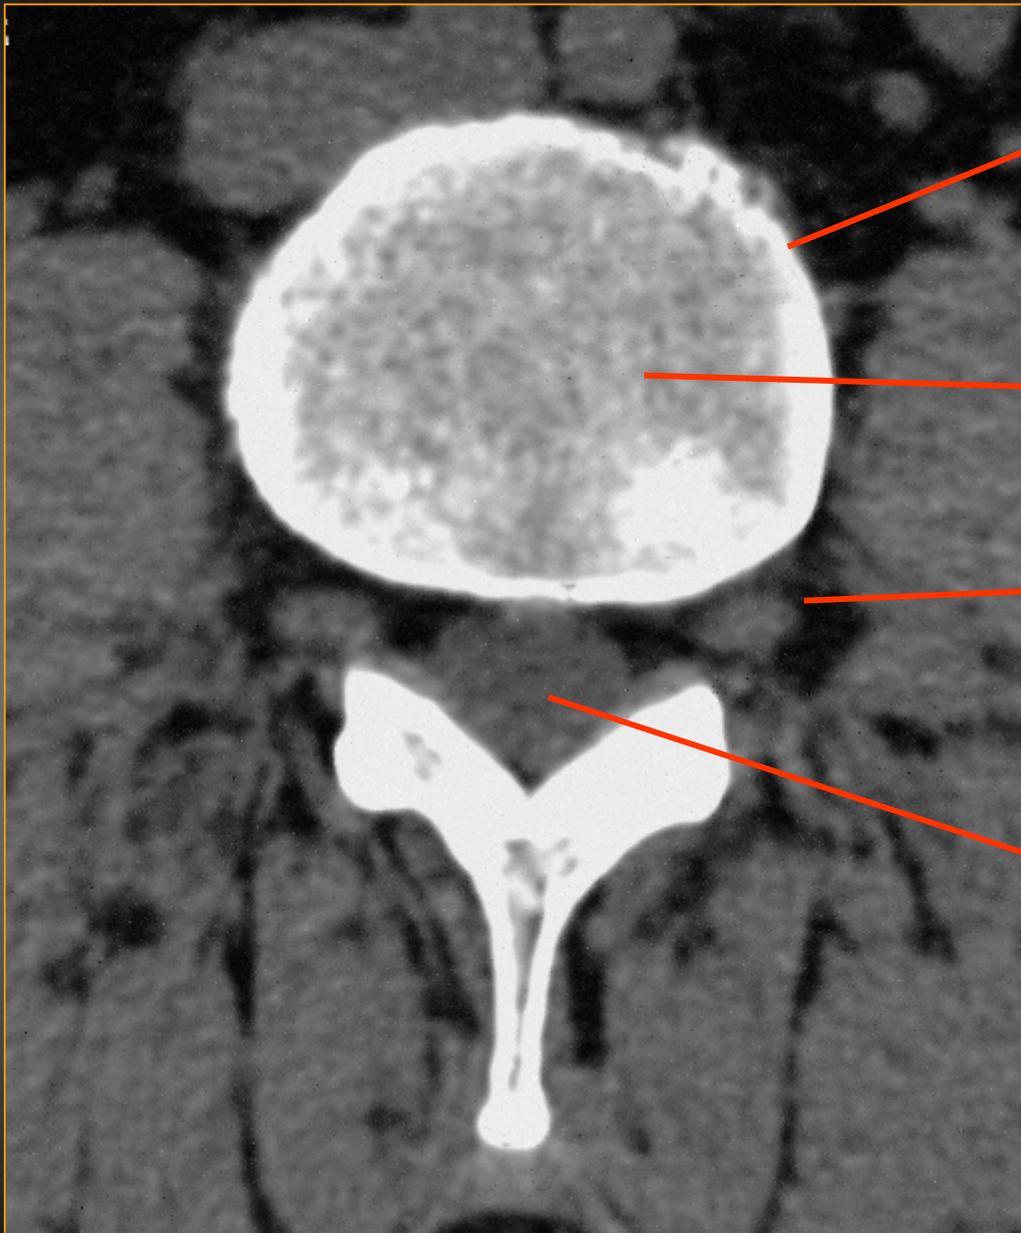

Processo trasverso (costale)

Canale intervertebrale (di coniugazione)

Apofisi articolare sup.

Istmo articolare

Apofisi articolare inf.

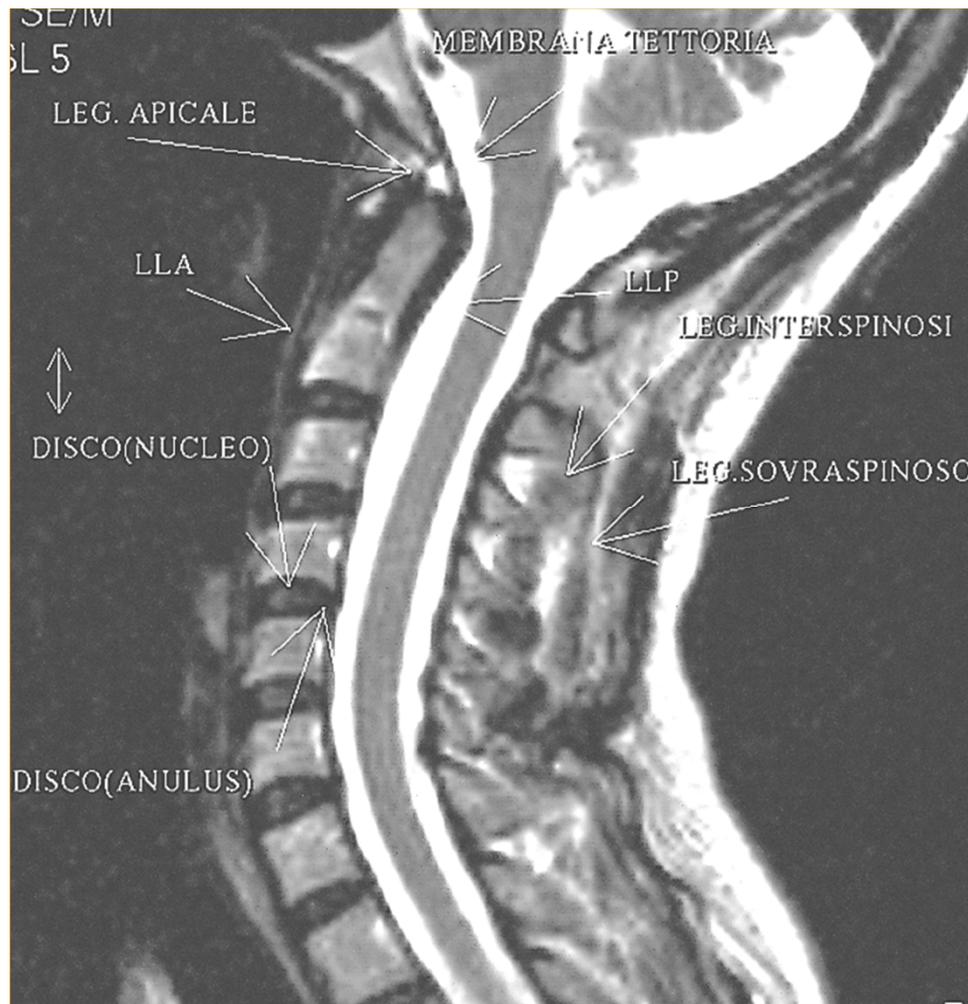

corticale

spongiosa

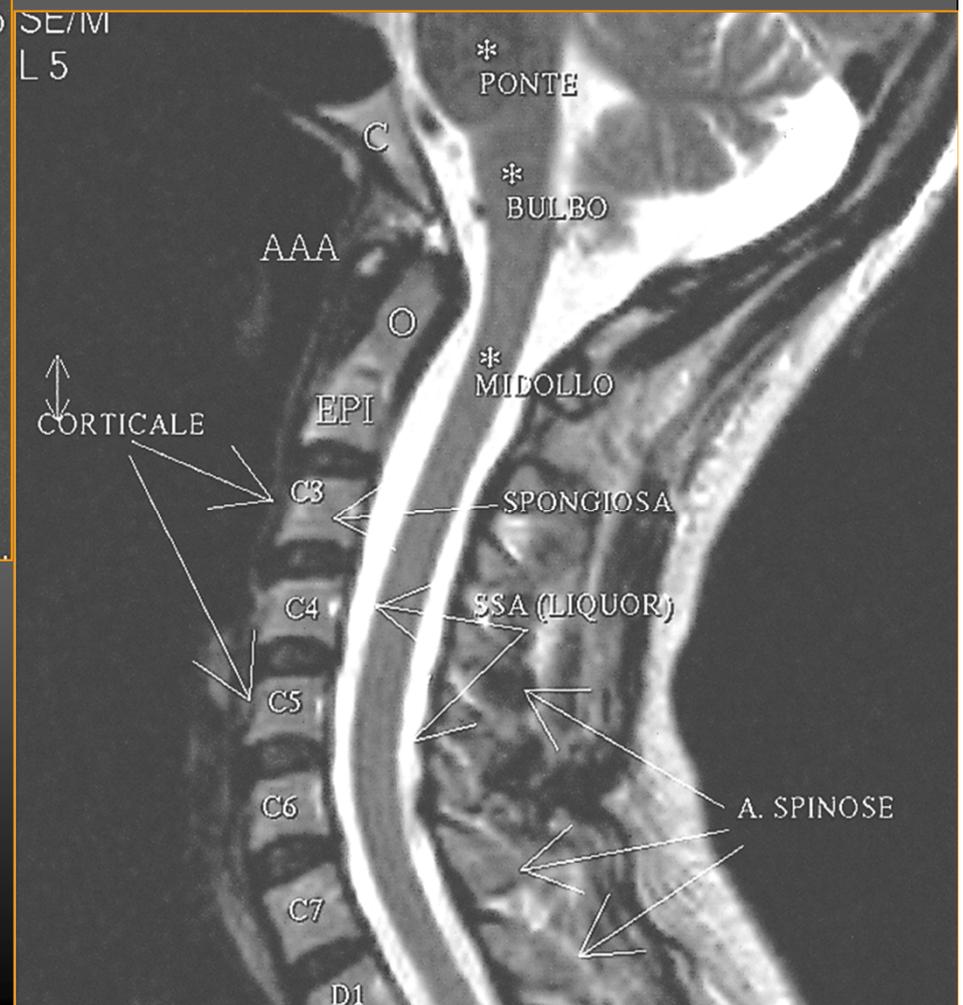

radice

sacco durale

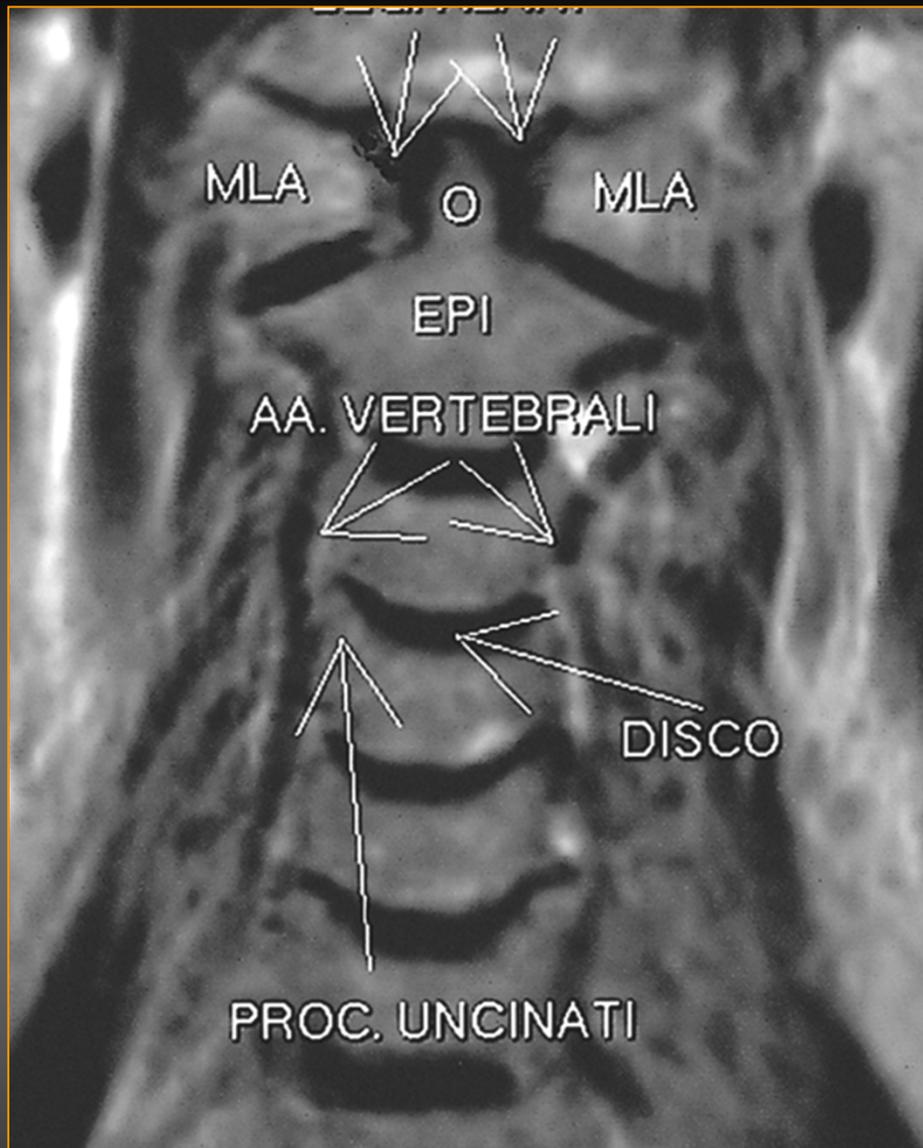

RM, sagittale, T2

anatomia rachide cervicale

anatomia cervicale

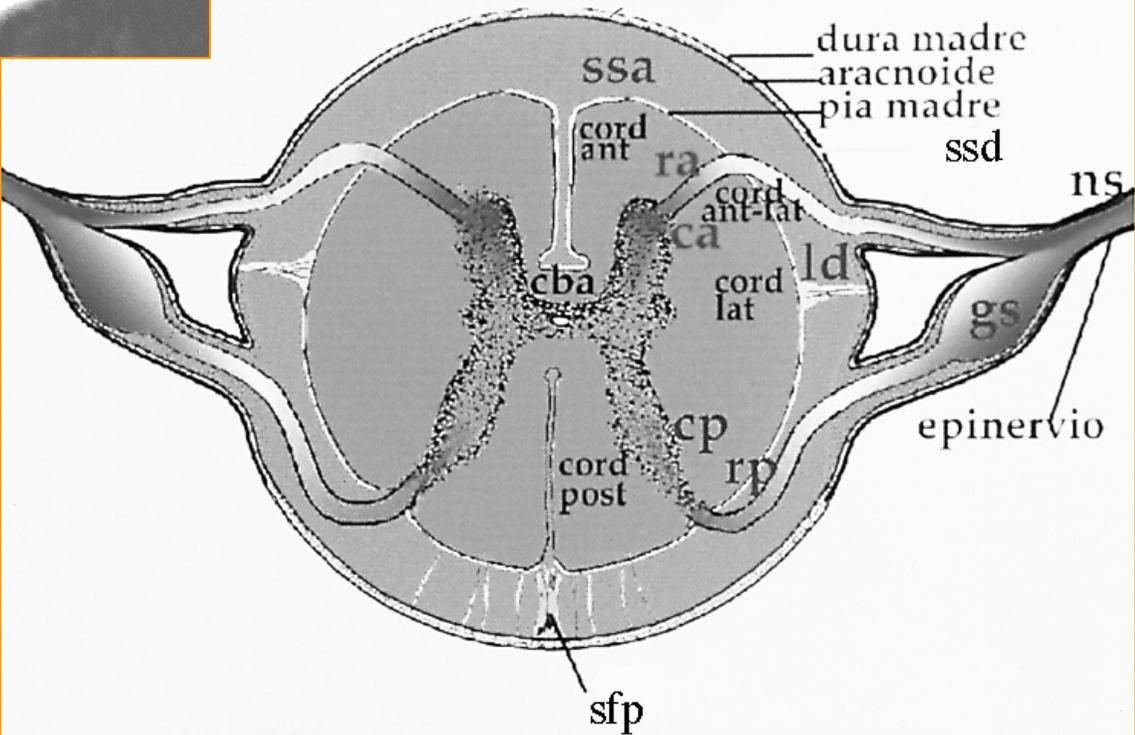

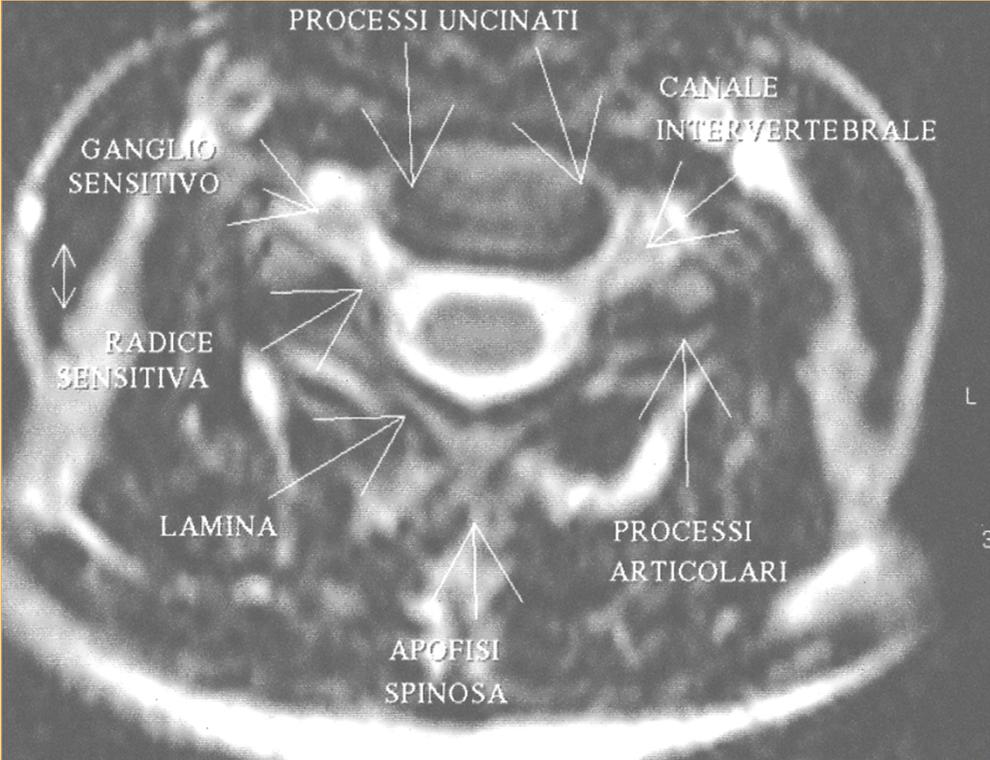

TC, 3D

RM, coronale, T1

anatomia cervicale

STRUTTURE VERTEBRO-MIDOLLARI

INDAGINI RADIOLOGICHE E MEDICO-NUCLEARI

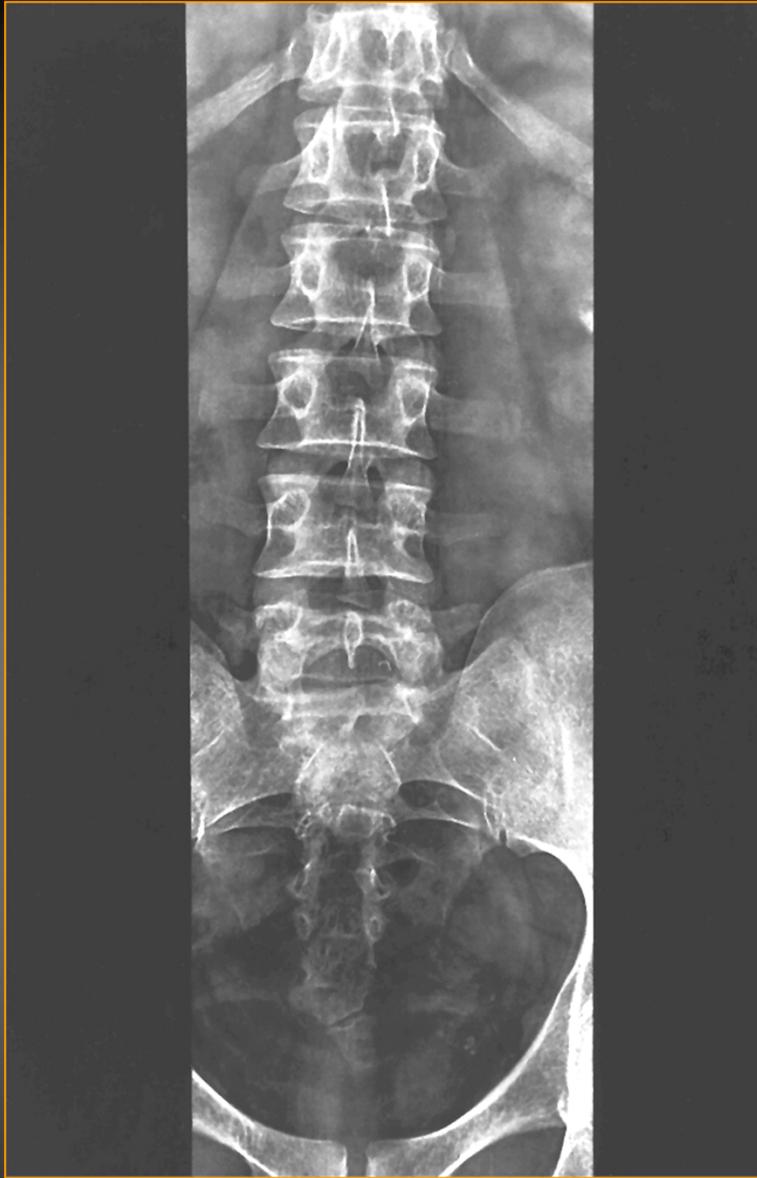

- Esame Radiografico
 - diretto
 - metodiche contrastografiche (mielografia, discografia, angiografia)
- Tomografia Computerizzata
- Risonanza Magnetica
- Medicina Nucleare
- Radiologia Interventistica (biopsia TC guidata, discectomia percutanea, cementizzazione)

Esame radiografico colonna cervicale (2 pr. ortogonali)

Esame radiografico della colonna dorsale

Esame radiografico della colonna lombo-sacrale
